Unlocking Private Investment in Large-Scale Solar Power
Scaling Solar brings together a suite of World Bank Group services under a single engagement aimed at creating viable markets for solar power in each client country. This “one stop shop” program aims to make privately funded grid-connected solar projects operational within two years and at competitive tariffs.

We offer a package that includes:

- **ADVICE** to assess the right size and location for solar PV power plants in a country’s grid.
- **SIMPLE AND RAPID TENDERING** to ensure strong competition from committed industry players.
- **FULLY DEVELOPED TEMPLATES** of bankable project documents that can eliminate negotiation.
- **COMPETITIVE FINANCING AND INSURANCE** attached to the tender and available to all bidders.
- **RISK MANAGEMENT AND CREDIT ENHANCEMENT PRODUCTS** to lower financing costs and tariffs.

**A One Stop Shop for Solar Power**

The World Bank Group has a long track record in the power sector. IFC is experienced in developing bankable power projects and has a substantial track record in both tendering and financing solar plants. The World Bank supports client country governments with financing and advice to extend access to electricity, expand least-cost generation, create sustainable regulation and leverage the private sector. MIGA provides a range of political risk insurance products to attract private capital into emerging markets.
The Benefits

Benefits to Governments and Utilities

- **SPEED:** Templates for all processes and documents enable rapid preparation, tendering and financial close.
- **CERTAINTY:** Balanced, bankable documents that can be offered to bidders on a non-negotiable basis with the comfort of pre-approved financing available to all suitable bidders.
- **LOW COSTS:** Tenders designed to attract competition among top-tier investors and minimize resulting tariffs.

Benefits to Project Developers and Investors

- **MARKET CREATION:** Consistent tendering and bankable documentation will open up regional opportunities for qualified developers looking for new markets.
- **REDUCED DEVELOPMENT TIME AND COSTS:** Technical diligence and approval requirements in place. Set of bankable documents and preapproved financing.
- **A LEVEL PLAYING FIELD:** Clear and transparent award process allowing developers and investors to compete on the basis of lowest tariffs and long-term commitment.

Benefits to International Donors and Development Partners

- **REACH:** Support to multiple low-income, fragile and conflict-affected states to achieve energy security and sustainable low-carbon growth.
- **LEVERAGE:** Donor support will leverage significant amounts of private capital through transparent, competitive tenders.
- **IMPACT:** Rapid delivery of low-cost, sustainable electricity, helping African countries meet urgent needs.

### CHEAPER SOLAR

Cost per kWh of electricity from solar power:

- **UAE** 3¢
- **Mexico** 3.9¢
- **Peru** 4.8¢
- **Scaling Solar Model** 6¢
- **Chile** 6.5¢
- **UK** 6.9¢
- **India** 7.6¢
- **Germany** 8.7¢
- **France** 9.5¢
- **Uganda** 16.4¢
- **Ghana** 18.2¢

Zambia’s cost is fixed: it won’t rise with inflation as most others will.

### FASTER SOLAR

Time from start of procurement to start of first construction:

- **Scaling Solar:** Zambia 1 year
- **South Africa** 2 years
- **Namibia** 3 years
- **Ghana** 5 years
- **Mali** 5.5 years
- **Kenya** 6.5 years
- **Burkina Faso** 7 years

### BETTER SOLAR

The Process

Solar generation can be achieved in as little as two years of engaging Scaling Solar

8 months 6 months 10 months 2 Years

1 PROJECT PREPARATION
- Technical and economic analysis
- Site investigation
- Legal & regulatory analysis

2 BID PREPARATION
- Localization of tender and project documents
- Attachment of financing, insurance, and credit enhancement

3 TENDER PROCESS & AWARD
- Request for qualification
- Bidder consultation
- Request for proposals
- Proposal review and award
- Signing of project documents

4 FINANCIAL CLOSE
- Finalization of contracts
- Final project approvals
- Finalization of loan agreements, insurance, and risk management

5 CONSTRUCTION & OPERATION
- Construction
- Commissioning
- Operations
